Please note, the following condition on your rights and freedoms, in Section 1 of the Charter:

Section 1.

The Canadian Charter of Rights and Freedoms guarantees the rights and freedoms set out in it **subject only to such reasonable limits prescribed by law as can be demonstrably justified in a free and democratic society.**

It means that any new measures must PROVEN to be “reasonable” and “demonstrably justified.”

HOWEVER, THE ONUS IS ON THE STATE TO SHOW THAT:

- (1) there is a valid legislative objective, and**
- (2) the measures taken to affect that valid objective are proportional and not over-reaching.**

Our government’s current “pandemic” measures are NOT “reasonable” NOR are they “demonstrably justifiable.” These measures are not scientifically or medically based, nor have they been proven effective whatsoever in the case of viral respiratory disease (the flu).

“Declaration of Emergency” Fraud in Canada

In order to make a Declaration of Emergency in any province or territory in Canada, first certain conditions or “criteria” MUST be met. Otherwise you could have mass pandemonium over nothing. However this did not happen when each province and territory in Canada made their Declarations of Emergency.

The Emergency Management and Civil Protection Act (EMCPA)

Sub-section 3, Criteria 1:

A Declaration of Emergency is made when there is an emergency that requires immediate action to prevent, reduce, or mitigate a “**danger of major proportions**,” that could result in serious harm to persons or damage to property. (This is the real definition of an ‘emergency.’)

For example in Ontario, with a population of just over 14,745,000 and only 1 ‘Covid19’ “RELATED” death at the time of the Declaration of Emergency, the criteria of “**danger of major proportions**” was **NOT met**.

Therefore the Premier’s declaration was made in VIOLATION to the very definition of “emergency” under the EMCPA.

Sub-section 3, Criteria 2 (i), (ii), (iii):

None of the provinces or territories met the ONE of these three circumstantial criteria REQUIRED to make a Declaration of Emergency. Further, they based their declarations on a predictive model from the UK which was outrageously over predicting the number of deaths in Canada.

Without meeting the criteria and circumstances set out in the EMCPA, all provincial and territorial Declarations of Emergency were **EXCESSIVE, UNREASONABLE, and UNJUSTIFIED**. Now, with further and continual extensions to the Declarations of Emergency by all provinces and territories, it has proven to be a sheer abuse of authority. The actual and real circumstances of emergency did not exist then, and do not exist now.

For a more detailed explanation of the EMCPA criteria and how they are being subverted and violated in every province please read more here: <https://standupcanada.solutions/declarations-of-emergency>

All of the current “pandemic’ measures in Canada started as a result of these FRAUDULENT Declarations of Emergency.
